

DO YOU WANT TO SAVE YOUR  
DATA SHEETS NOW ?

**If you recognize this...**

“Workahol” is a chemical that has been scientifically proven to induce a significant degree of stress in more than 95% of human beings. Recent studies revealed that both acute and chronic exposure to workahol may cause serious heart diseases. Occupational exposure is particularly severe for those who typically combine this chemical with a nervous job.

**SGS has the right drug**

Fortunately SGS has developed an excellent new tranquillizer, world-wide known as “MSDS management”. Our specialists make your life easy, calm and quiet by generating or upgrading your Material Safety Data Sheets, without any adverse effect. On the contrary, what you obtain are state-of-the art MSDS.

**To make your illusions true**

You may consult your MSDS online via your standard internet browser and combine the advantages of professional support with the ease of secure internal and external access to the latest safety information in the required format. Our modular assistance for your own benefit !

**Our expertise in MSDS management**
